Garanti

Produkterna omfattas av 5 års produktgaranti. Slitage eller fel uppkomna genom felaktig användning omfattas inte av garantin.

#### Kundanpassade produkter

---

Mitab erbjuder anpassningar av befintliga produkter i projekt. När anpassningen görs tillkommer en extra kostnad. För mer information vänligen kontakta Mitab Support. Nedan följer de vanligaste anpassningarna.

##### Specialfärger metall

Vi kan tillhandahålla andra kulörer med tillkommande extra kostnad.

##### Bordsskivor

Vi erbjuder specialtillverkning av skivor enligt kundens specifikation.

##### Stativ

Vi kan tillhandahålla specialanpassade höjder till såväl våra stolar som bord.

##### Soffor

Vi kan tillhandahålla specialanpassade längder till flera av våra soffor.

#### Startkostnader

---

Startkostnader gäller per kulör, per order. Det betyder att vid beställning av olika produkter med samma specialkulör på samma order tas endast en startkostnad ut. Notera dock att produkter med både metall och trädetaljer innebär två startkostnader (RAL+NCS), t.ex. Montmartre barpall.

Metall

Ytbehandlingar för stativ i metall är uppdelade i tre priskategorier, Standard RAL, Selected RAL och krom samt Anycolour RAL. Kulörbeteckningar för metall anges i RAL-kulör. För ytterligare kulörinformation, kontakta Mitab Support.

Standard RAL

För samtliga produkter där inget annat anges gäller följande kulörer som standardkulörer i kategorin Standard RAL: Svart, Vit och Silver. Tänk på att alla produkter inte erbjuds i alla kulörer och att vissa produkter enbart erbjuds med strukturlack.

Selected RAL

Kategorin inkluderar ett urval av kulörer där vi erbjuder en större variation i färgsättning utan tillkommande startkostnader. Kulörerna i kategorin Selected RAL kan komma att förändras med tiden. Vi kan inte garantera möjlighet till komplettering utan tillkommande startkostnad.

Samtliga kulörer levereras i matt utförande.

Krom

Till utvalda produkter erbjuds krom som ytbehandling, se priskategorier under respektive produkt. Endast 3-värt krom s.k. miljökrom används i våra produkter.

Anycolour RAL

Kategorin erbjuder en fast prissättning per produkt samt en fastställd startkostnad för samtliga kulörer i sortimentet RAL-classic. Samtliga kulörer levereras i matt utförande om inget annat anges.

Mitab erbjuder färgkartor över RAL-classic. Behöver du en färgkarta, kontakta Mitab Support.

Standard RAL och krom

## Trä

Vi använder såväl bets (spritbets) som täckbets på våra artiklar. Var därför noggrann med att kontrollera vilket utförande som gäller på den produkt du är intresserad av. Där inget annat anges är täckbets standard. Det innebär att trästrukturen är synlig, men att färgen är homogen likt ett lackerat utförande. Skivor betsas på ask fanér, sitsar och ryggar på björk fanér om inget annat anges. För ytterligare info, kontakta Mitab Support. Vi tillhandahåller alla betsfärger. Bets anges, likt metallkulörer i tre olika priskategorier. Priser anges för sits/rygg i nämnd ordning eller i förekommande fall sits och rygg. Ange alltid betskulör med NCS-nummer.

## Bets Standard NCS

Betskulörer i standardkollektionen inkluderar svart och vit. Samtliga kulörer levereras i matt utförande.

## Bets Selected NCS

Betskulörer i denna priskategori är färgmatchade med kulörerna i RAL Selected och erbjuds utan ställkostnad. Samtliga kulörer levereras i matt utförande.

## Bets Anycolour NCS

För alla kulörer utanför Standard och Selected tillkommer startkostnad utöver angivna styckpriser. Samtliga kulörer levereras i matt utförande om inget annat anges på beställningen.

Mitab erbjuder färgkartor över RAL-classic. Behöver du en färgkarta, kontakta Mitab Support.

### Kompaktlaminat

---

Kompaktlaminat eller homogent laminat är ett laminat av HPL-typ (Högtryckslaminat). Laminatet saknar traditionell bärarskiva och består endast av hårt sammanpressade pappersark. Kompaktlaminatet är extremt tåligt. Den typ Mitab använder sig utav är 12mm tjock och har vit dekor med svart kärna. För inomhusbruk.

Kulör standard kompaktlaminat:

Vit

### Högtryckslaminat

---

Högtryckslaminat (HPL) tillverkas genom att flera skikt av impregnerat papper pressas samman under högt tryck och hög temperatur. Detta ger ett slitstarkt, hållbart och hygieniskt ytmaterial. Mitab använder högtryckslaminat som ytmaterial på bordsskivor i kombination med spånskiva eller MDF som bärare.

Formica Infiniti™ är en typ av högtryckslaminat skapat med teknik som skyddar materialet från märken, fingeravtryck och skador och håller det vackert längre. Det har en matt finish, används av Mitab till skivorna på produkten Fold och finns där i tre färger.

Kulör standard Högtryckslaminat (Formica):

Vit laminat - F1040 Alpino

Svart laminat - F2253 Diamond black

Röd laminat - R036 Rouge Cerise FA

### Massivträ

---

Massivträ karakteriseras av variationer i textur och färg, vilket gör varje produkt unik. Det massivträ Mitab använder sig utav är i huvudsak hämtat från Europa och är antingen lackerat, betsat eller täckbetsat. När massivträ utsätts för solljus förändras färger på materialet över tid.

Standard massivträ:

Ask

Björk

Ek

### Glas

---

Mitab använder sig av härdat Floatglas. Genom upphettning och avkylning blir glaset 6 – 7 gånger starkare än vanligt glas. Om glaset går sönder granulerar hela glaset i små ofarliga bitar vilket eliminerar risken för personskador.

Standard Glas:

Oceanblå

Brons

#### Klädselmaterial

---

Klädselmaterialen i Mitabs kollektion är indelade i fyra olika prisgrupper samt läder. Mitab tillhandahåller även andra tyger från alla ledande leverantörer. För prisinformation kontakta Mitab Support.

På sidorna 23-28 finns en tygmatris som är till för att visa vilka av våra standardtyger som är tekniskt möjliga till respektive produkt och visas med en svart prick (•) och vilka tyger som Mitab rekommenderar för ett riktigt bra resultat visas med en stjärna (\*). Vi reserverar oss för användning av vissa tyger till vissa produkter med hänsyn till produktens slutgiltiga kvalitet. Alla tyger är inte lämpliga för alla modeller.

#### Tygåtgång

Alla uppgifter angående tygåtgång för våra modeller gäller för tyger utan mönsterpassning och med bredd 1,5m, samt att uppgiven tygåtgång gäller för enfärgad klädsel. Vid större antal kontakta Mitab Support angående exakt materialåtgång. Fraktkostnad för insänt klädselmaterial betalas av kunden.

#### Mönsterpassning

Vid användning av mönstrade tyger förbehåller vi oss rätten att ta ut kostnad för mönsterpassningar. Kontakta Mitab Support för ytterligare information.

#### Insänt klädselmaterial, c.o.m.

Kunden ansvarar för att klädselmaterial kommer Mitab tillhanda senast 15 arbetsdagar före utsatt leveransdag. Överblivet material kan återsändas på kundens bekostnad.

#### Delad klädsel

Flera av våra produkter kan tillverkas med delad klädsel. På flera av produkterna kan du se direkt i prislistan vad detta kostar. Om du inte hittar eller har specifika frågor om delad klädsel, kontakta Mitab Support.

#### Läder

De priser som anges för läderutförande på respektive produkt avser svart läder i kvalitet Noir från Sørensens Leather. Om läderutförande inte anges innebär det att modellen inte rekommenderas eller kan erbjudas i läder. VIKTIGT!! Vi förbehåller oss rätten att lägga till sommar och delningar på produkter i läderutförande. För pris på läderutförande i andrafärger än svart, kontakta Mitab Support för prisinformation.

#### Stoppningsmaterial

---

Som stoppningsmaterial i produkterna används kallskummad polyeter. Materialen uppfyller kraven enligt brandtest FMVSS nr 302 punkt 5, samt den så kallade Californiatesten.

#### CMHR

---

CMHR – Combustion Modified High Resilience. Högelastiskt skum som är flamskyddat för att uppfylla det engelska brandkravet "Consumers Protection Act, Furniture and Furnishing (Fire) (Safety) Regulation 1988, Schedule 1, Part 1, ignition source 5." CMHR skum går att få mot en extra kostnad, kontakta Mitab Support. När du väljer att använda CMHR skum blir resultatet oftast en något fastare sittkomfort. För mer information kontakta Mitab Support.

Mesh

Mesh är ett stickat polyestermaterial som ofta används som en bärande del i konstruktionen av en produkt. Mitab använder sig av mesh som bärande material i ryggen på produkten Risto och finns enbart i svart utförande.

Kulör standard mesh:

Filt

Polyesterfilten som Mitab använder sig av är ett 100% återvunnet, non-woven material. Materialet har dels goda ljudabsorberande egenskaper och fungerar bra som konstruktionsmaterial då det värms upp och formpressas. Filten som Mitab använder finns i ett flertal färger och används i olika produkter i sortimentet.

Kulör standard filt:

PUR

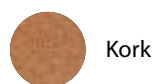

PUR är ett skummat material med ett tätt ytlager. Materialet är oftast infärgat och är perfekt när man önskar hög slitstyrka och vattenavvisning. Det är ett vanligt material och vi kommer i kontakt med det dagligen utan att vi reflekterar över det. Mitab använder sig av PUR till armstödsdetaljer och sitsar och finns i tre färger.

Standard pur:

Pur

Kork, ett naturligt material från barken på kork ek. Det är mycket lätt och ogenomsläppligt för vätska. Det är elastiskt och komprimerbart och har en utmärkt förmåga att isolera mot värme och ljud. Det är också brandsäkert och har ett högt nötningsmotstånd. Vi tycker också att kork är ett vackert material som gör varje produkt unik. Mitab använder idag kork som sitsmaterial i produkterna Boet, Fred och Barney
